
Thursday, October 8th, 2009 5:00 PM, Ungar Building, Room 402

Inside the Puzzle Palace:
Careers in Mathematics and Computer Science
at the National Security Agency

Dr. Arnaldo Horta
National Security Agency
Fort Meade, Maryland

In this talk, I will discuss the role of mathematics and computer science at NSA and discuss hiring opportunities, including REUs (Research Experiences for Undergraduates) and programs for graduate students.

This is a CSMS Project Industrial Liaison Seminar
