Who May Apply?

One does not have to have an undergraduate degree in Geography to apply. Many of our students come from other fields. Students from other fields will be required to audit three basic background courses. If you do not have an undergraduate Geography degree please tell us in your statement of interest why you have selected Geography for your graduate work.

When is Your Application Due?

Applications are due by March 15, as the Admissions Committee will meet soon after that date. If you are accepted, you will be required to commit by April 15 as to whether you will attend.

Students who have missed the March 15 date can still apply, however funding after this date is not likely. Contact the Graduate Program Director at moise@miami.edu if it is past March 15 for more information.
