

“Will interest every reader who really cares about wisdom, truth, and the world.”

“A great collection!”

“Haack’s new book is a powerful stimulus for those who believe in the value of intelligence, honesty, and informed common sense. Haack has become one of the greatest Pragmatists...”

—María J. Frápolli
University of Granada, President of the Spanish Society for Logic, Methodology, and Philosophy of Science

“This is a very exciting and engaging book. Erudite and witty, ... Haack succeeds in developing illuminating, nuanced positions on a wide range of topics, from economics to feminism to religion to law.

—Iddo Landau
University of Haifa

“Doing justice to these essays in a couple of sentences is a tough assignment. ... A great collection!”

—F. John Clendinnen
History and Philosophy of Science, University of Melbourne

“Haack herself exemplifies the virtues she identifies as essential: she writes illuminatingly about what is at stake, for the individual and society, in ‘the struggle for intellectual integrity.’”

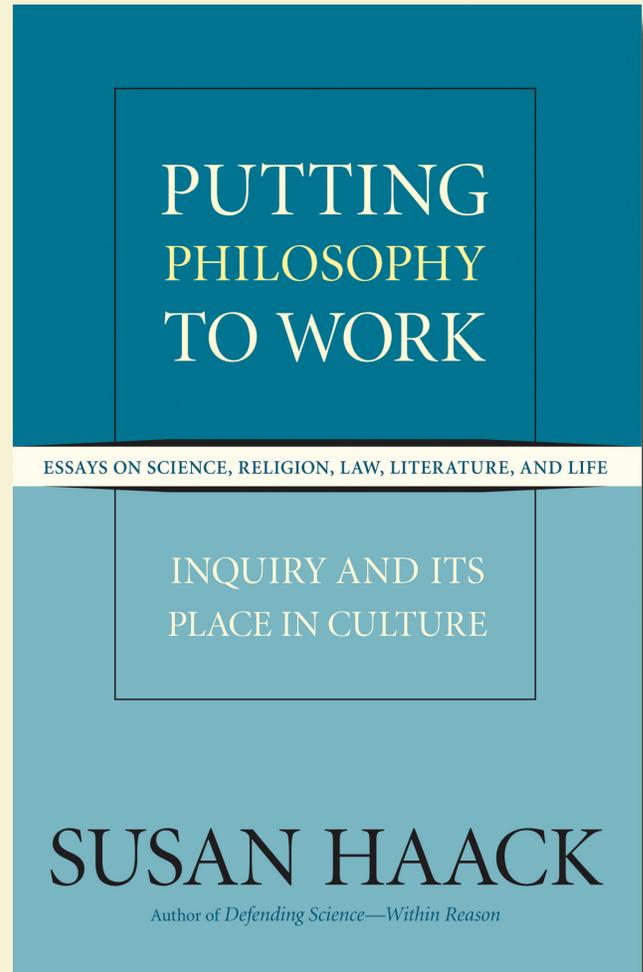

—Dagfinn Føllesdal
C. I. Lewis Professor of Philosophy, Stanford University

“Susan Haack has been amazingly and admirably energetic, creative, and productive. ... This book, manifesting the intellectual integrity of a real and responsible thinker, will interest every reader who really cares about wisdom, truth, and the world.”

—Chen Bo
Peking University

This wide-ranging collection of Susan Haack’s new and recent essays offers applied philosophy in a new key and a fresh voice—subtle, penetrating analyses of vital issues about science, society, religion, law, literature, even about what makes a life meaningful.

Whether she is telling the “sad, sleazy saga” of a drug company’s efforts to suppress the unfavorable results of a clinical trial it had funded, disentangling the many senses of “coherent,” or reflecting on the growth of intellectual character, Haack writes with the clarity, verve, and wit her readers have come to expect.

336 pp / ISBN 978-1-59102-528-3 / HC / \$32

Susan Haack (Coral Gables, FL) is Distinguished Professor in the Humanities, Cooper Senior Scholar in Arts and Sciences, professor of philosophy, and professor of law at the University of Miami. She is the author of numerous highly acclaimed books including *Defending Science—Within Reason*; *Philosophy of Logics*; *Evidence and Inquiry*; *Deviant Logic*; *Fuzzy Logic: Beyond the Formalism*; and *Manifesto of a Passionate Moderate: Unfashionable Essays*. She is also the editor of *Pragmatism, Old and New*. She is one of the handful of living philosophers in Peter King’s *100 Philosophers: The Life and Work of the World’s Greatest Thinkers*, and was included in the *Sunday Independent*’s 2005 list of the ten most important women philosophers of all time.
